

LEADING NEW ICT, BUILDING A BETTER SMART CITY

Huawei Greece “Smart City” Forum 2017

14:30 13th Mar, Goulandris Museum - 13th Levidou str. Kifisia 14562,Athens

LEADING NEW ICT BUILDING A BETTER SMART SOCIETY

Huawei Greece “Smart City” Forum 2017

Dear Mr Chiotakis,

I am very honored to invite you to attend the 2017 Huawei **Smart City Forum** and **Smart City Exhibition** that will take place at Goulandris Museum of Natural History, Athens, Greece on March 13th 2017.

Today, a growing number of nations/public authorities worldwide are capitalizing on new ICT technologies – such as Internet of Things (IoT), Cloud Computing, Big Data and SDN – to build smart cities. These efforts help flourish the economic vitality of cities, making cities a better place to live and work in.

This Smart City Forum brings together cities, companies, and institutions seeking for the most relevant and innovative solutions regarding the Smart City sector. Thus providing an excellent platform for industry experts from different sectors such as Electric power industry, Education industry, Government etc. to share ideas on Smart City trends, best practices, innovative technologies and farsighted thought on future Smart City.

Furthermore a diversity of innovative solutions regarding Smart City governance, public service, etc. shall be exhibited ,offering you a first hand experience of the efficiency and convenience that the Smart City evolution offers to public authorities/services as also to citizens, enhancing daily life making it simpler.

Looking forward for your presence.
In respect,

Tonny Bao ,General Manager, Huawei Technologies Greece and Cyprus
